The JJET forum is specifically designed for both juvenile justice educators and staff trainers. It will provide a unique opportunity for participants to discuss critical issues, participate in skill-building workshops, learn about best practices and promising approaches, and establish new networks of support. Participants will have the opportunity to assess their current educational and staff training programs against best professional practices and envision new goals for the future.

We are looking for workshops that will help participants develop quality educational and and/or staff training programming that empowers, engages and inspires students whether they are adult or youth.
